

# Maintaining a Safe Camp Environment Form

## Camp Yavneh 2011

**For All Campers  
Currently in Grades 7-10**

Camper's Name \_\_\_\_\_ Current Grade: \_\_\_\_\_ Session: \_\_\_\_\_

In light of the current climate of adolescents' early exposure to violence and illegal substances, both in the media and unfortunately in some cases direct exposure we feel it important to address several issues with you at this time.

The Camp Yavneh community acknowledges that there are many illegal substances that are available to share or purchase in schools and on the streets today. These substances include but are not limited to alcohol, marijuana, and ecstasy.

In camp we live in a community that strives to impart values of health and wellness. Respecting the value of a drug free /weapon free environment is a critical goal that cannot be achieved without uniform adherence to a policy of zero tolerance.

In the interest of achieving this goal of a drug free/weapon free environment we are asking you to read this letter as well as the statement below with your child. Your signature along with that of your child insures that all parties are fully informed and are in agreement.

**I agree not to bring to camp or have in my possession any of the following substances including but not limited to: marijuana, alcohol, ecstasy, all illegal drugs, prescription drugs, knives and other weapons, fireworks, any lighting/smoking paraphernalia.**

I understand that if any of the above is found in my possession I will be removed from camp at my parent's expense. I further understand in the interest of zero tolerance Camp Yavneh has the right to do a spot check that may result in my possessions being searched. (Please be assured that your private diaries, notes, letters will not be disturbed)
